## **AMENDED NOTICE OF INTENT TO CLAIM COMPENSATION OF THE GREEN POWER INSTITUTE**

### Introduction

Pursuant to ALJ Lakritz's July 10, 2006 *Ruling Granting NOIs*, the Green Power Institute (GPI) hereby amends its original *Notice of Intent to Claim Compensation*, in the Commission's *Order Instituting Rulemaking to Implement the Commission's Procurement Incentive Framework and to Examine the Integration of Greenhouse Gas Emissions Standards into Procurement Policies*. This Amended NOI updates our estimates of participation and expenses in phase II of the proceeding, which will be conducted subject to AB 32, California's new, landmark greenhouse gas reduction legislation.

The GPI filed its original NOI in this proceeding on June 9, 2006, pursuant to Section 1804(a) of the California Public Utilities Code. The July 10, 2006, ALJ's *Ruling* found that the GPI is eligible to file a Request for an Award of Compensation as a Class III customer with demonstrated financial hardship. The *Ruling* states, on page 6:

Ruling no. 4: GPI, Redefining Progress, SF Power and TURN may file amended Notices of Intent (NOIs) to claim compensation to reflect additional costs associated with Phase 2 of this proceeding.

The parties were asked to file Amended NOIs within 30 days of the issuance of the Phase 2 Scoping memo. The GPI is timely filing this Amended NOI in accordance with instructions given on the phone by ALJ Lakritz to GPI Director Morris on March 5, 2007.

### Amended Estimate

The GPI expects to be an active participant in all areas of phase 2 of the Greenhouse Gas Incentives Proceeding. We were an active party in phase 1 of the proceeding, which

recently was completed. Our participation in phase 1 exceeded our estimate of \$34,200 as given in the NOI. In fact, our current estimate is that our participation in phase 1 slightly exceeds \$50,000.

In the original NOI, we estimated that our participation in phase 2 would be at a level of \$57,000. In light of our experience in phase 1, and the detailed and intricate technical issues that will be tackled in phase 2, including issues regarding measurement and accounting for greenhouse gases, emissions reporting, setting declining allocations and caps, and compliance, we are hereby increasing our estimate of the cost of our involvement in phase 2 to \$100,000. Of course, the ultimate extent of the GPI's involvement in phase 2 will depend in part on the work done by other parties representing similar interests. We expect to consult regularly with other participating environmental and consumer organizations and renewable energy associations.

### Conclusion

This revised statement of the scope and extent of the GPI's expected participation in phase 2 of the greenhouse gas proceeding, R.06-04-009, constitutes the GPI's Amended NOI in this proceeding.

Dated March 6, 2007, at Berkeley, California.

Respectfully Submitted,

Gregory Morris, Director  
The Green Power Institute
